

Learn How to Create Customized Printed Wooden Floors

The leading provider of large-scale event visuals and support materials

PrintonCarpet.com is happy to announce you can now make customized wooden floors in any color, size or shape. If you can create the image on your computer, we can create your wooden floor. Using 24" x 24" wooden tiles any image is possible. For those customized shapes, our computerized CNC router and cutters can create any design you would like.
